

Noah Winzig

SOFTWARE ENGINEER

(203)-558-9065 | noahwinzig@gmail.com

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

SKILLS

Languages: Javascript, Python, HTML, CSS, SQL

Frameworks / Tools: React, Redux, Express, Flask, Sequelize, SQLAlchemy, PostgreSQL

Other: Data Structures & Algorithms, Object Oriented Programming

PROJECTS

Social Reader (Python / Javascript / CSS / HTML / React / Redux / Flask / SQLAlchemy / Render) [live](#) | [GitHub](#)

A clone of bookclubs.com providing functionality for users to join book clubs and track reading lists.

- Designed an intuitive UI with CSS, HTML, and React to increase user satisfaction and involvement.
- Developed custom SQLAlchemy queries for an efficient transfer of data by leveraging preexisting methods.
- Established a Flask framework enabling an accelerated developer workflow by increasing readability and streamlining application.

YSTE (Python / Javascript / CSS / HTML / React / Redux / Flask / SQLAlchemy / Render) [live](#) | [GitHub](#)

Inspired by Etsy, YSTE gives users the ability to browse, review, and sell products as well as interact with a cart.

- Managed preparation and organization of wireframes and database schema to outline project objectives.
- Implemented spotlight images by creating custom SQL queries and Python filtering to display random products.
- Adapted CSS and flexbox to create an organized splash page for an enhanced user experience.

BnB (Javascript / CSS / HTML / React / Redux / Express / PostgreSQL / Sequelize / Heroku) [live](#) | [GitHub](#)

A web application created to simulate the functionality and design of AirBnB.

- Incorporated HTML validators to provide users with simplified information for interactions requiring user input.
- Exceeded expectations in the development of a clone by creating a scalable custom PostgreSQL database.
- Utilized Git to manage the organization and merging of branches based on their stage in development.

EXPERIENCE

Sales Specialist - Apple Inc. 10/2019 - 05/2021

- Collaborated on cross functional team with proper communication to enhance customer relations and learning.
- Coached incoming and current team members in product knowledge and proper customer interactions.

Sales Associate - Sunglass Hut 05/2017 - 06/2018

- Refined marketing, communication, and customer assistance skills through one on one interactions.
- Generated sales reports within corporate guidelines to track sales growth and evaluate strategies for improvement.

Service Technician Helper - Air Professional Associates 07/2015 - 01/2017

- Assisted with the repair, maintenance, and installation of heating and air conditioning equipment, including duct work, piping, and electrical to ensure product quality and exceed customer expectations.

EDUCATION

App Academy - Full-stack web development bootcamp prioritizing software engineering best practices 2022

SEE TEFL - Teaching English as a Foreign Language (TEFL) Certificate | Chiang Mai, Thailand 2021

College of Charleston - Bachelor of Arts in Political Science | Charleston, SC 2021

VOLUNTEER EXPERIENCE

Be the Match - Charleston, SC | Fundraiser & Pageant Organizer

Boys and Girls Club - Mount Kisco, NY | Youth Learning Supervisor
